## PREFACE

The Royal University of Oslo Library, like many other libraries, contains old collections not properly described. One of these is in the East Asian Department where the gifts from missionaries, merchants and adventurers in China before the Second World War, amounting to some five hundred books, have never been completely catalogued.

A grant from the Chiang Ching-kuo foundation in 1991 for institutional enhancement made it possible for the library to rectify this omission.

The library would like to express its pleasure and gratitude to the Chiang Ching-kuo foundation for making this project possible and to the curator of Chinese books, Elisabeth Eide and Don Wagner for making this catalogue a reality.

Jan Erik Røed

Director

## Introduction

This catalogue covers the "older Chinese collection" of the Oslo University Library – books whose shelf-marks begin with **Hs** and which are thread-bound in the traditional Chinese manner. These books have not previously been satisfactorily catalogued. Also included are a selection of more recently acquired traditional Chinese books, with shelf-marks beginning with **I**: though these are already catalogued, their inclusion means that the present catalogue covers all or nearly all of the Library's Chinese bibliophilia.

The catalogue has three parts: (1) The catalogue proper, ordered alphabetically and with one entry for each work. The entries are formed as normal library catalogue entries, and can be used in the creation of cards for the Library card catalogue. (2) The index to the catalogue. This includes all author and editor names, all titles and alternate titles, and all publishers. (3) The shelf list, ordered after shelf-mark and with one entry for each shelf-item. This part gives more information about the books than is found in the first part, and gives it in a format similar to that of a traditional Chinese catalogue of rare books (*Shanben shumu* 善本書目).

The basic cataloguing work was done on three one-week visits to Oslo in the period September 1991 to March 1992. Many thanks are due to the Library staff for their hospitality during these visits and to the Chiang Ching-kuo Foundation of the Republic of China for paying travel expenses as well as a generous honorarium.
